“In 2009 over 500 homes burgled every week”

(source CSO Reports 2009)

Is your home Burglar Proof?

Customer Testimonials

“Following an incident where an intruder broke through our front door we contacted Peter and the team for help! Within a few days Peter called out after work hours to take a look at the door. While we were restricted by the apartment design to change the entire door Peter offered us another solution which provides us with greater security and reassurance. Within a week Peter and the team called out and installed a safety bar to our front door. The job only took about two hours and the team were very efficient and tidy.

*Peter and the team thanks again for your speed & efficiency and a job well done!
Luca, Dublin City Centre”*

*“Just want to say thanks to you & all for the Mottura Secure Bar. It was fitted ever so quickly & looks so neat. It really makes me feel so secure & especially while I’m at work it reassures me that my property and belongings are safe & secure”
Thanks again*
